Introduction

Thank you for choosing our reclining shampoo chair. This professional backwash unit combines ergonomic comfort with a sleek, modern design. Featuring a reclining seat, extendable leg rest, and a durable ceramic basin with adjustable tilt, it's built to enhance both stylist workflow and client comfort.

Safety Guidelines

1. Check Water Temperature Before Use

- Always test the water temperature with your hand before directing it onto the client's scalp. Avoid scalding or excessively cold water.

2. Secure Client Comfort and Positioning

- Adjust the chair and neck rest so the client is comfortably and securely positioned. Support the neck properly to avoid strain.

3. Avoid Hair and Product Buildup

- Regularly clean the drain and basin. Remove hair after each use to prevent clogs and maintain hygiene.

4. Disinfect Between Clients

- Use salon-grade disinfectants to clean the sink, faucet, and headrest after every client to prevent cross-contamination.

5. Avoid Electrical Hazards

- Keep all electrical appliances (hair dryers, clippers) away from the sink area. Do not plug or unplug devices with wet hands.

6. Report Leaks or Damage

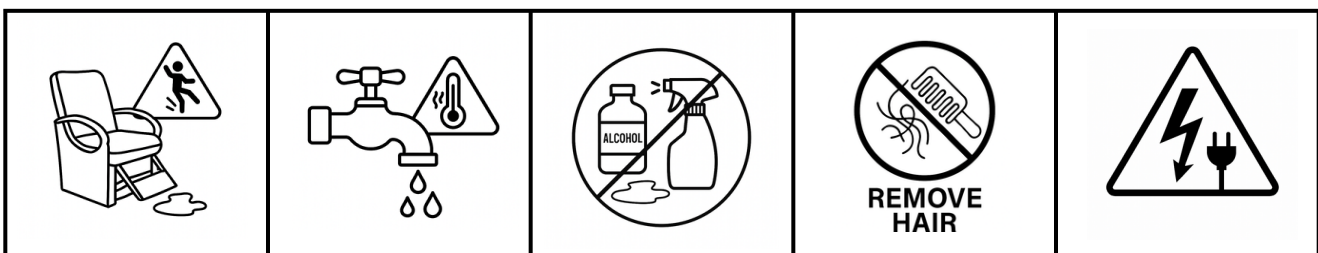

- If you notice any leaks, broken fixtures, or loose fittings, report and repair immediately to avoid water damage or injury.

7. Store Chemicals Safely

- Keep shampoos, dyes, and cleaning products in labeled containers and store them away from the basin when not in use.

8. Train All Staff

- Ensure all staff are trained on proper shampoo sink use, sanitation, and safety procedures.

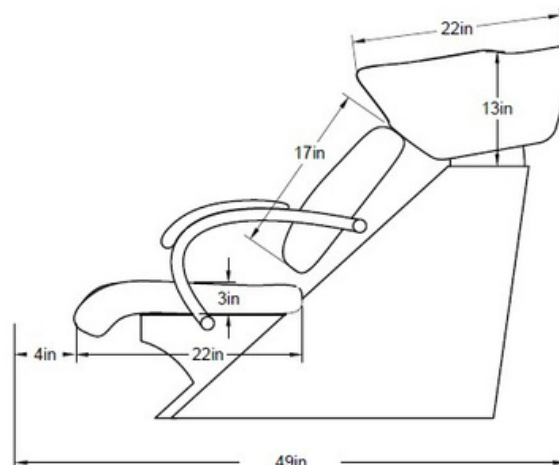

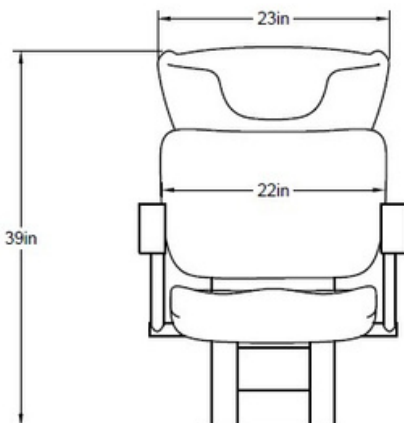

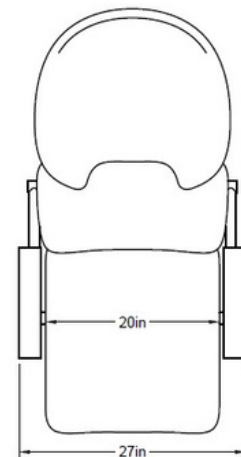

Parts and Features

Features:

- Reclining Seat – Supports natural body position for relaxation
- Heavy-Duty Ceramic Basin – Resistant to stains and chemicals, with a high-gloss finish
- Adjustable Bowl Angle – Easily accommodates clients of different heights
- Durable Frame & Padding – Solid internal structure with high-density foam and PU leather
- Hot & Cold Water Mixer – Smooth-flow faucet and vacuum breaker included
- Sprayer & Drain Assembly – All plumbing fittings pre-installed
- Chrome Armrests – Sleek and sturdy, adding a premium finish
- CSA Approved

Specifications

- Dimensions: 45"-49"x27"x39"
- Weight: 200lb
- Chair Material: PU Leather + High-Density Foam
- Water Connections: Hot/Cold Mixer, Sprayer, Vacuum Breaker
- Bowl Material: Black Ceramic (glossy finish)
- Frame: Wood/Steel combination
- Bowl Adjustment: Manual Tilt

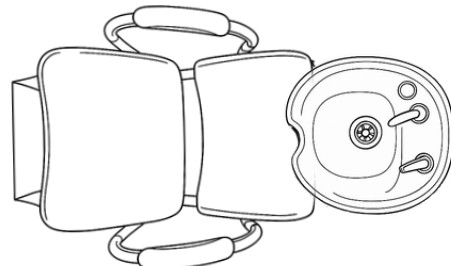

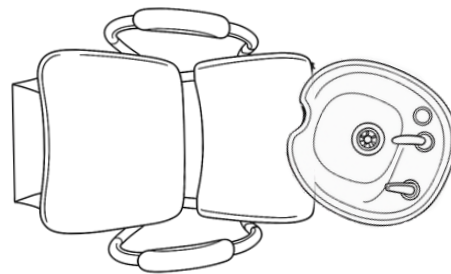

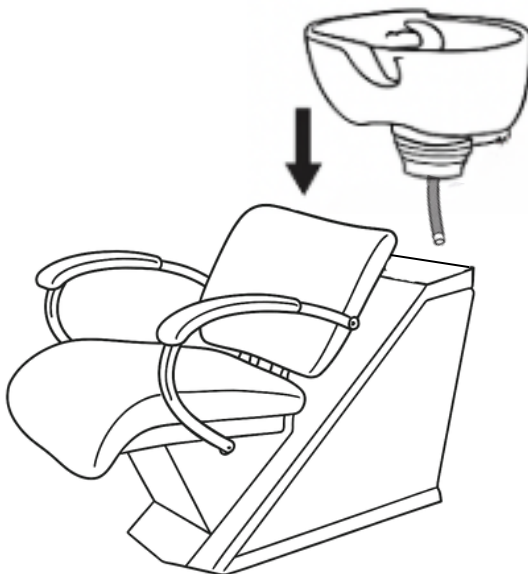

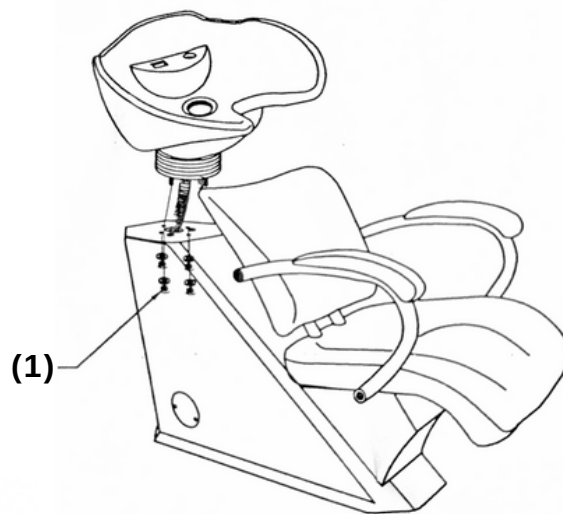

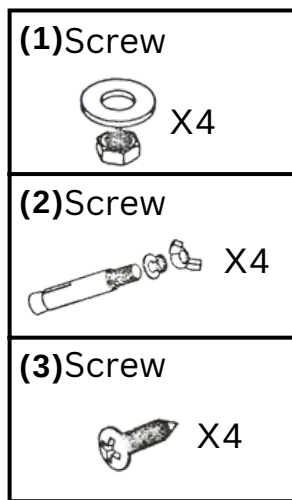

Installation Instructions

⚠ Installation by a licensed plumber is recommended.

Step 1: Position the Ceramic Bowl

Carefully align the ceramic bowl with the base of the shampoo chair. Gently lower the bowl into position, ensuring that the support ring or mount is seated securely on the chair's basin holder. Fasten the screws firmly to secure the part.

Align the sink to the base as shown in the diagram

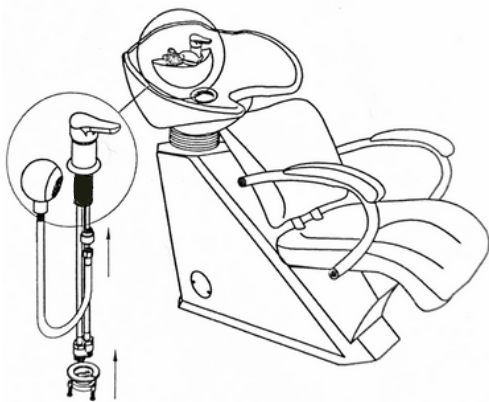

Installation Instructions

Step 2: Install the Faucet and Sprayer

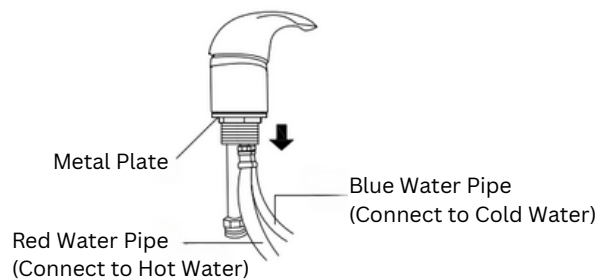

Insert the faucet into the pre-drilled hole on the shampoo sink. Secure it from underneath using the included washer and locking nut.

Next, insert the pull-out sprayer into its corresponding hole, and connect the sprayer hose to the faucet's quick-connect fitting or threaded outlet. Make sure all components are tightened and firmly seated.

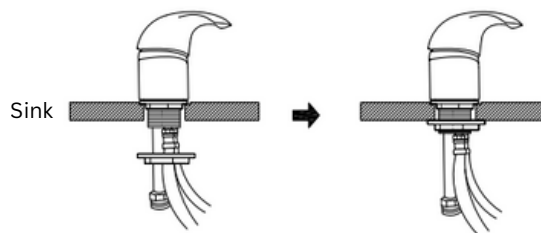

FAUCET SET UP

- 1 Unscrew the metal plate from the faucet

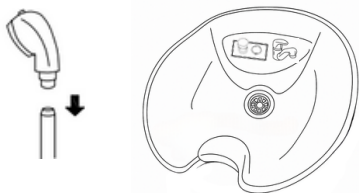

- 2 Place the faucet on the sink and fasten using the metal plate

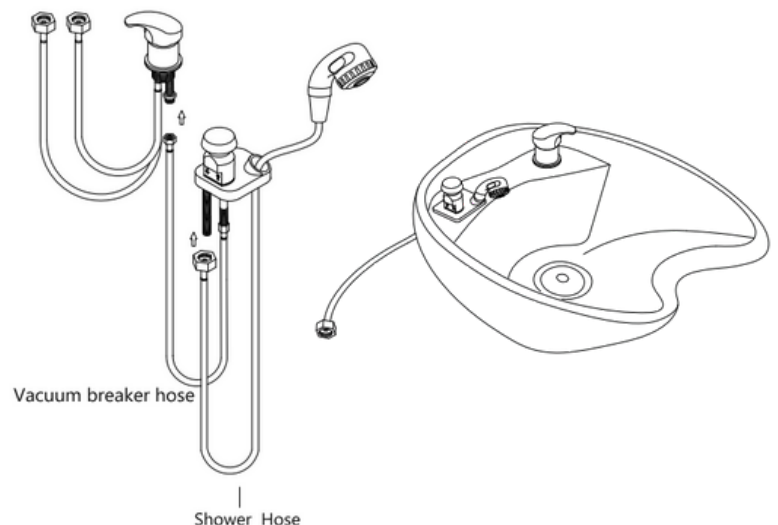

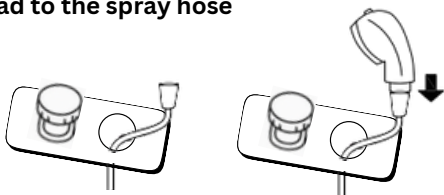

SPARYER SET UP

- 1 Unscrew the sprayer head from the sprayer hose

- 2 Place the sprayer hose from underneath through the sprayer head holder and fasten the sprayer head to the sprayer hose

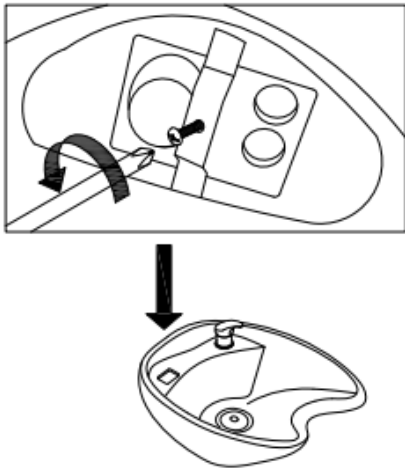

Installation Instructions

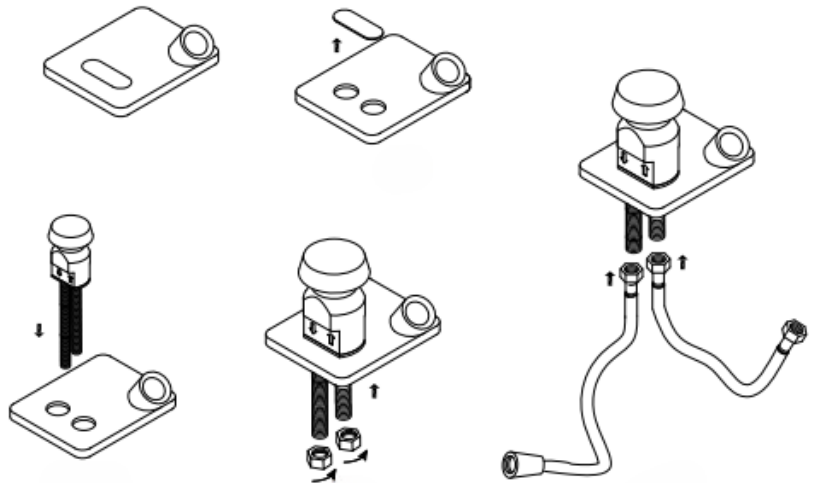

Then, connect the vacuum breaker to the water line between the faucet and the spray hose using appropriate fittings. Secure it tightly with plumber's tape to prevent leaks. Ensure it is mounted in a vertical position as per manufacturer instructions, allowing it to prevent backflow. Finally, turn on the water to check for any leaks and proper functionality.

VACUUM BREAKER SET UP

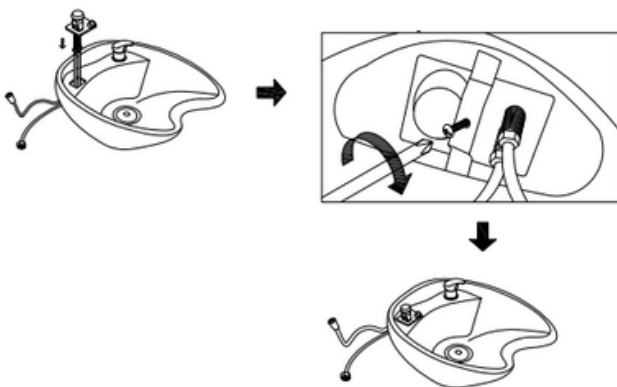

1 Unscrew the metal plate from the bowl

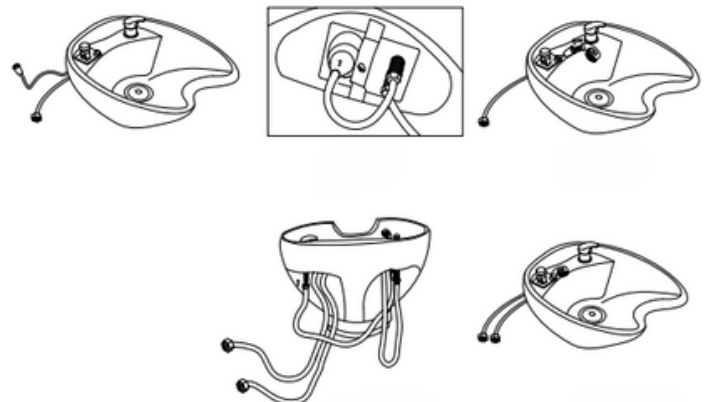

2 Install the vacuum breaker

3 Screw it back into the bowl

4 Connect to the water pipe

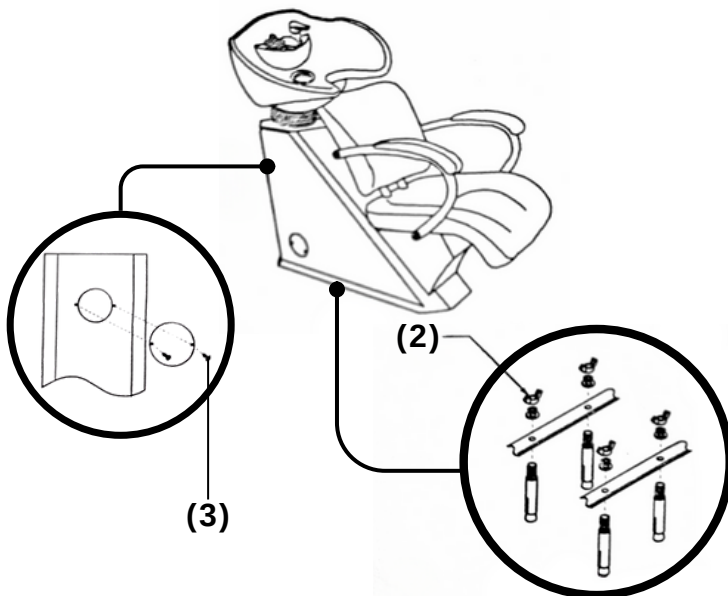

Installation Instructions

Step 3: Connect the Water Hoses

Attach the hot and cold flexible water hoses to the faucet's inlet connections (marked with red and blue). Then route the hoses down through the rear of the chair to prepare for connection to the main water supply.

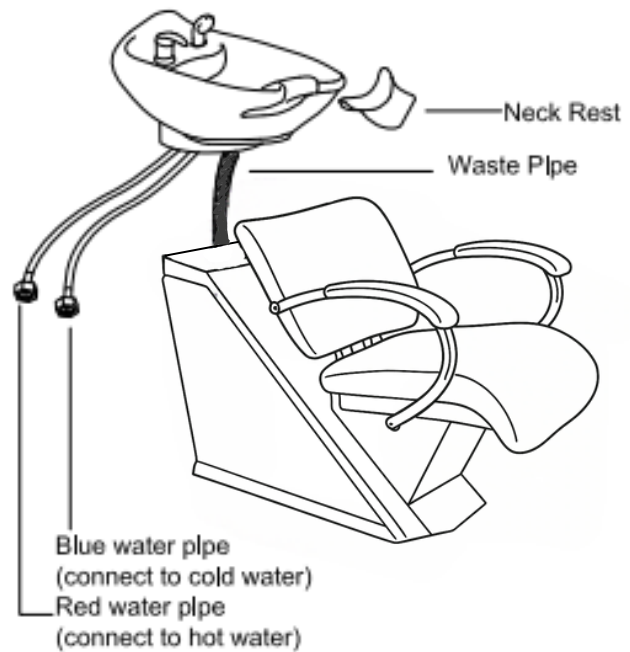

Step 4: Secure the Base and Check Alignment

Secure the base with screws. Make sure the ceramic bowl is stable and properly aligned.

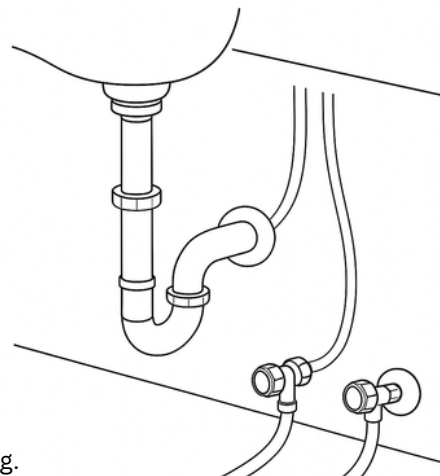

Final Check

- Turn on the water supply and test both hot and cold flow.
- Check the sprayer for functionality and proper pressure.
- Test the drainage to ensure water flows smoothly without leaking.
- Gently recline the chair and extend the leg rest to confirm full mobility.

Step 5: Connect the Plumbing

Attach the drain pipe to the outlet under the bowl and secure tightly. Connect the hot and cold hoses to the corresponding valves on the wall. Tighten all fittings to prevent leakage.

Cleaning and Maintenance

- **Chair Surface:** Wipe with mild soap and damp cloth. Avoid alcohol-based cleaners.
- **Bowl:** Clean with non-abrasive, ceramic-safe solutions.
- **Drain:** Remove hair trap weekly and rinse thoroughly.
- **Check Fittings:** Periodically inspect hoses and connectors for leaks or wear.

Troubleshooting

Issue	Possible Cause	Solution
Water leaking from faucet base	Loose or damaged seal/washer	Tighten nut under sink; replace washer if worn
Sprayer not spraying or weak flow	Clogged nozzle or twisted hose	Clean nozzle with vinegar; check and straighten hose
Uneven water temperature	Incorrect mixer valve settings	Adjust hot/cold valves and test again
Bowl does not tilt or feels stuck	Tilt mechanism needs lubrication or realignment	Apply light lubricant or re-align tilt mechanism
Water drains slowly from bowl	Hair or debris blockage in drain trap	Remove and clean hair trap or check drain pipe
No water flow from faucet or sprayer	Closed shut-off valves or kinked water line	Open shut-off valves fully; check hose connections
Leaking at hose fittings	Loose or cross-threaded connections	Turn off water, reseal hoses with Teflon tape if needed
Faucet wobbles or moves	Lock nut not tightened properly under sink	Tighten faucet mounting nut securely with wrench

Warranty and Support

- **Warranty:** This product comes with a year warranty that covers defects in materials and parts. Failure to follow recommended care will void product warranty. Consumer misuse not covered. Inspection Required. Normal wear and tear not covered. Satisfaction Does Not Apply.
- **Customer Support:** For any issues with assembly, use, or maintenance, please contact our customer service team at **+1 604 438 3399** Monday–Friday, 9:00 AM – 5:00 PM (Local Time) or email to **info@protabeauty.com**
- **Service:** If you need repairs or parts replacement, contact us for assistance.

Do not dispose of old or defective appliances in domestic garbage; this should only be done through public collection points.
